#### TOKENS OF APPRECIATION

Sometimes, the greatest gifts are the unexpected ones. Montblanc Accessories are ideal for such surprises. It doesn't have to be a big event or milestone to show your business partners, colleagues or clients that they're valued. Be it a corporate event, a small thank you or simply no reason at all, Montblanc offers treasured items that act as small, heartfelt signs of appreciation.

## Add a personal touch

When it comes to adding an extra-special, personal touch, engraving adds an unparalleled level of detail to any gift. Montblanc Writing Instruments can be personalised in three different variations. Company logos, names or initials can be either engraved on the cap with silver, gold or rose-gold coloured covering, or alternatively be laser engraved on the clip. Additionally, the recipient's initials can be set in diamonds on the clip.

## Diamond setting

Initials (max. 3 letters) on the clip

## Engraving on the cap

Gold-coloured  
Silver coloured  
Blind engraving

## Laser engraving on the clip

Selection of different font styles and engraving options to add the recipient's name, initials, personal message or logo.

## Personalized Leather embossing

A personalized gift is proof of the thought and meaning that's gone into it. Montblanc's small leather product can be personalized in two variations, either embossing or lasering. Initial, full names or company logos can be embossed in gold color, silver color or blind embossed. Other colors are available on demand. Also, logos can be lasered on smooth leather surfaces.

### Lasering:
